MICHELANGELO ENDLESS

[MICHELANGELO - INFINITO]

“Michelangelo - Endless” is the first art movie ever made about the absolute genius of the Renaissance and history of universal art: Michelangelo Buonarroti.

Cinema and art's worlds meet in order to trace the portrait of the secretive as well as troubled man, capable of sharp contrasts and strong passions, but also to show great courage when it comes to support his beliefs and ideologies. An immortal personality, one of the greatest artists the world has ever seen, whose rich and varied artistic production, became an everlasting sign in the history of universal art.

This astonishing movie, shot with the most advanced filming technologies, retraces the main sculptural and pictorial production of Michelangelo, showing its most famous masterpieces: the Sistine Chapel ceiling, The Pietà, The David, The Moses, The Universal Judgement, The Saint Peter's Dome, The Tondo Doni and other juvenile works.
